### 36-INCH INDUCTION COOKTOP

**MANUFACTURER:** Verona  
**PERFORMANCE:** The electric induction cooktop features an easy-to-clean black ceramic surface and soft-touch digital controls that sit at the front of the unit.

**PRICE RANGE:** \$\$

**APPLICATIONS:** All five burners can detect a pan's presence, while a fast-boil setting can be used on three at a time. An alarm signals accidental spills; there is also a hot-surface and residual-heat indicator.

## A Growing Concern

**CAN A KITCHEN LAYOUT** change how we eat? Mario Zeppetzauer, a managing director of Austrian industrial-design firm **Formquadrat**, thinks so. With the Voking kitchen, he says, “We aim to show that design can make vegetarian cooks’ lives easier.” Currently in prototype, the kitchen features seven freestanding units that support the preparation of meat-free meals through specialized appliances, fixtures, and storage areas. The unit, which features active and passive zones, includes a module devoted to spice making—complete with a mortar carved into the counter and a bank of ceramic storage containers. Voking’s double-bowl sink accommodates seed-sprouting trays, while its glass-front cabinets incorporate **Urban Cultivator**’s indoor gardening system, which allows the user to grow microgreens and herbs.

Although there are no firm plans to produce the Voking, the project’s wide range of backers—including such kitchen, food, and furniture purveyors as **Gaggenau, Dornbracht, Team 7, Cosentino, Eisinger Swiss/Franke, and Pfeffersack & Soehne**—indicates there is interest in the subject. But Zeppetzauer says the aim is simple: “We want to have a positive impact on the future of nutrition and cooking.” —LC

**GREEN LIVING** Formquadrat’s concept design for a kitchen that supports vegetarian cooking features an indoor gardening system, a spice-making station, and a bank of ceramic storage containers.

*Dillon Kyle Architects*  
*Houston*

“Our clients want appliances where they want them, not where they ‘have’ to be. Individual column-style freezers, refrigerators, and wine coolers can be positioned at any location: in the kitchen or even beyond it.”

### SNAP FACT

U.S. homeowners remodel a total of  
**1.8 MILLION**  
 kitchens each year.
