GREAT DESIGN IS ALWAYS IN STYLE

These timeless products stand the test of time

by Linda Jennings

K2002 kitchen faucet

The K2002 kitchen faucet by Cinaton is completely touch-free. The faucet features a swivel spout, dual function pullout spray head, and three user-defined preset settings for convenience. Cinaton's iSense technology makes it easier to turn on the water flow when hands are messy or turn off the water when it is not needed, thereby saving water and keeping the faucet cleaner while helping to reduce the potential for bacteria. The K2002 kitchen faucet touch-free design utilizes five advanced sensors to put water into motion and allow the user to adjust water temperature. It also features a center easy sensor pause, or disable function, for cleaning the sink area. The faucet is available in either a polished chrome or satin nickel finish.
